A vibrant community garden scene under a clear blue sky. In the foreground, several tall sunflowers with bright yellow heads and green leaves are prominent. The garden is filled with various green plants, some with small yellow flowers. Several wooden stakes and signs are placed throughout the garden, some with handwritten text like 'TAT'. In the background, there are more trees, some with autumn-colored leaves, and a modern brick building with large windows. A black metal fence separates the garden from the building. A tall, thin light pole stands near the building.

Wat ging er goed?

en wat ging minder goed?
